SUMMARY

10 items open the Coming Soon page.

You chose design A · Corniche, and both sites are built: the Coming Soon page for ibnhamidochicago.com, and the full site with online pickup ordering. What is left is information only you have. Part 1 is all we need to put the Coming Soon page live; Parts 2 to 8 finish the full site.

2	Business facts	11	Full site

How to reply

Type your answers into the white "Your answer" column and send the file back. Short notes, voice notes or WhatsApp messages are fine too; we tidy the English and keep your meaning.

Name each photo by its ID (for example SG-03.jpg) and send them as files through Google Drive or WhatsApp "Document", so they aren't compressed.

Part 1 first. As soon as it comes back, the Coming Soon page goes live.

Already decided for you

- The opening date shows as **"Opening SOON"** until you give us a date.
- The address links to Google Maps for 14035 LaGrange Rd, and the pages show a live map.
- The waitlist asks for email only. A phone/SMS field stays off until there are SMS terms.
- The Halal badge and customer reviews stay hidden until you confirm them (Parts 5 and 6).
- All photos on the design today are AI concept pictures or stand-ins. None can go on the public site, so each needs a real photo (Part 8).

PART 1

Needed to open the Coming Soon page

These 10 items are the only thing stopping the Coming Soon page from going live. The site will not publish while any of them is missing.

Question	Your answer
Extra sides with a fresh-catch order: what does one extra side cost? Same as above, or a set add-on price?	

PART 4

Online ordering setup

The ordering pages are built but take no real payments yet. The most important answer is which register or payment system you'll use, because it decides how fish sold by the pound is charged.

Question	Why we ask	Your answer
Which register / payment system? (Square, Toast, Clover, other)	Real checkout connects to it	
Can it charge the final price after the fish is weighed?	Fish is paid as an estimate, then adjusted at the counter	
How much extra to hold on the card for by-the-lb orders (e.g. 15%)	Covers a fish that weighs a little more	
Largest fresh-catch order online, in lb	Bigger orders call the restaurant	
Is "about 1 lb of whole fish per person" right?	Shown when choosing a weight	
Sales tax rate	Checkout total	
Offer tipping online? Yes / No	Checkout total	
Usual wait for an ASAP order (e.g. 20 min)	"Ready in about …"	
Last online order time each day	Ordering closes at this time	
Pickup slots: first slot, last slot, orders per 15-minute slot	Scheduled pickup times	
Who updates daily fish prices and sold-out items, and when?	Keeps prices and stock right	

PART 5

In your own words

This is the writing only you can give us. Short and plain is perfect; we tidy the English and keep your meaning.

Cooking styles

One or two sentences each: what it is, how you make it, and the best fish for it. Please also correct the "Offered on" list, which is our guess.

ID	Style	Offered on (our guess)	What it is, in your words

K-02	Fried	Branzino, Salmon, Red Snapper, Tiger Shrimp, Scallops	
K-03	Baked	Branzino, Salmon, Red Snapper, Lobster	
K-04	Singari	Branzino, Salmon, Red Snapper, Tiger Shrimp, Scallops	
K-05	Rada	Branzino, Red Snapper	
K-06	Butterfly	Branzino, Red Snapper	
K-07	Deboned	Branzino, Red Snapper	

Fresh fish

One line each, the way a waiter would say it.

ID	Fish	Description
F-01	Branzino	Mediterranean sea bass. (ours: keep or change)
F-02	Salmon	
F-03	Red Snapper	
F-04	Tiger Shrimp

Photos and logo

The design uses 65 photos. Every one is an AI concept picture or a stand-in, and each must be replaced with a real photo before the full site opens.

- Phone photos are fine: daylight or bright even light, no flash, at least 2000 px on the long side.
- Leave space around the food: most photos are cropped to an arch or a square.
- Tick the last column as you send each one.
